

# SLUM AND RURAL HEALTH INITIATIVE

# IMPACT REPORT 2019

## Our Vision

We envision an Africa where healthcare information and services is easily available to everyone, everywhere.

### UNDERSERVED COMMUNITIES

Africa bears 25% of the global burden of diseases, yet has only close to 3% of the world's doctors.

### UNDERINFORMED POPULACE

There are several barriers that limit access to healthcare in Africa which includes social, cultural, religious barriers among others

## Our Why?

### UNDERUTILIZED TECHNOLOGIES

There is a current underutilization of technology which has the immense power to positively improve access to healthcare.

## Our Mission

To improve access to health information and services by connecting health professionals to the populace through advocacy, technology and research so that they can make the right health decisions.

# ABOUT US

We are Africa's largest youth-led and youth-focused health organisation that works at the intersection of health and technology.

SRHIN is a fully-registered body that ensures life-saving healthcare information and services reach rural areas, urban slums, and internally displaced persons camps using our unique ART (Advocacy, Research and Technology) approach.

Our dynamic SRHIN team of over 400 registered volunteers from 8 African countries empowered thousands of people this year with over 51 events in over 10 different cities.

Thank you

**Dr. Isaac Olufadewa**  
Founder, SRHIN

# SRHIN IN NUMBERS

8 African countries 

52,000 +

Young people directly reached in urban slums, rural areas, and IDP communities

400 +

Volunteers

1.3M +

Online impressions via our 14 days of #Equalityforprogress campaign

13+

Conference and scholarships won by members

5,700+

Volunteer hours committed

12+

International peer-reviewed publications.

57+

Outreaches and events organized

25+

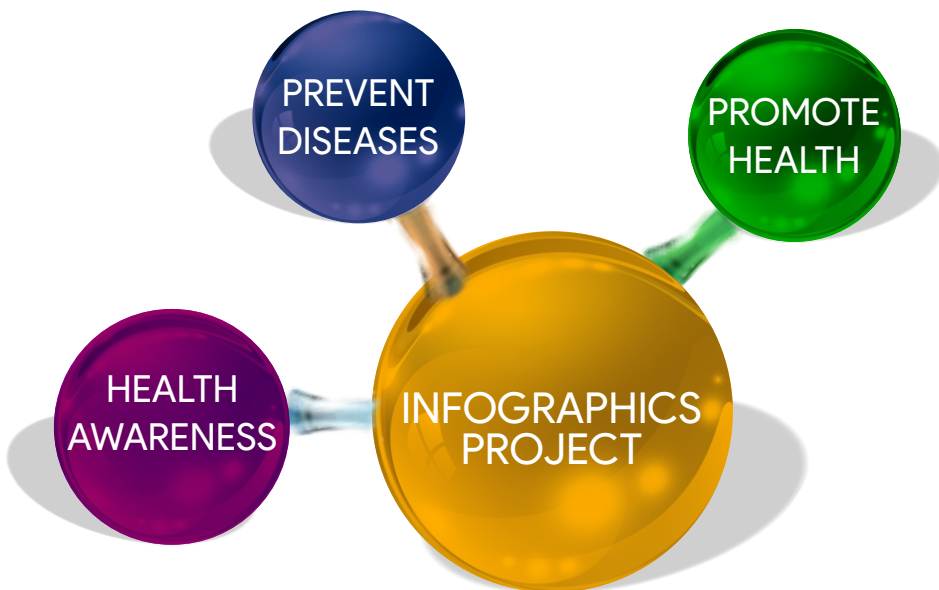

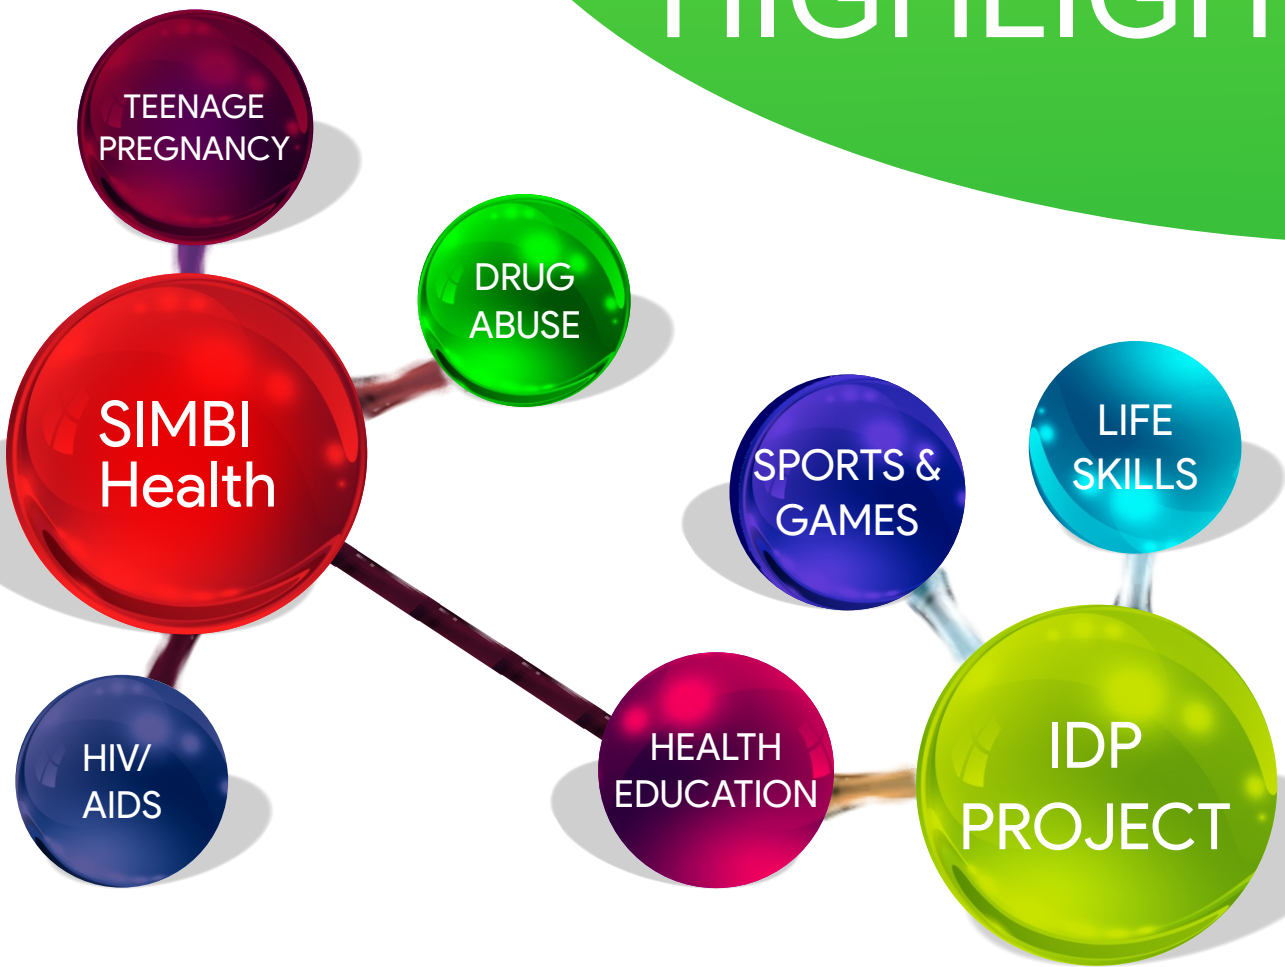

Online, print, radio and TV appearances.

250,000+

Combined social media impressions.

# PROJECT HIGHLIGHT

# SDGs

3 GOOD HEALTH AND WELL-BEING

Our core mandate is to create access to healthcare to everyone, everywhere.

Through our 14 days activism on #Equalityforprogress and many more campaigns, we bridge the gender gap.

5 GENDER EQUALITY

4 QUALITY EDUCATION

We are at the fore-front of health education through online and physical outreaches which we believe is the foundation for healthy living.

We educate people in underserved communities such as the IDP camps to embrace healthy lifestyle behaviour such as hand washing.

6 CLEAN WATER AND SANITATION

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

We work at the intersection of health and technology (such as our chatbot, mobileApps) to improve the health of people.

Our primary focus is reaching underserved communities such as slums, rural areas and IDP camps to reduce health and social inequality.

10 REDUCED INEQUALITIES

16 PEACE AND JUSTICE STRONG INSTITUTIONS

Our integrated development and peace project emphasizes on peace-building education and strategies for displaced people to create opportunities.

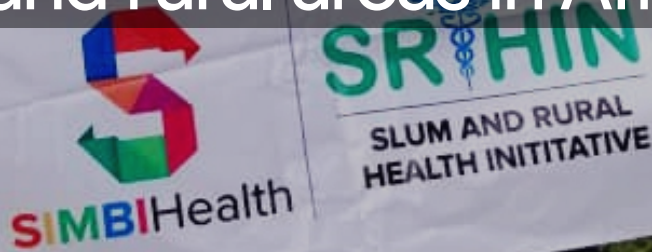

We collaborate and are open to new partnerships to forge a better, brighter and healthier future.

17 PARTNERSHIPS FOR THE GOALS

# SIMBI HEALTH

We are changing the narrative about access to sexual and mental health in slum and rural areas in Africa.

## SIMBI CHATBOT

Artificial intelligence-driven and empowering information on sexual and mental health.

Hello there!  
I'm SIMBI

Can you tell me  
more about HIV

## OFFLINE REACH

Physical outreaches in over 10 cities/towns - Lagos, Abuja, Ibadan, Abeokuta, Ijebu-Ode, Osun, Ilese-Ijebu, Owo.

## SIMBI MOBILEAPP

We are creating a community of young people who will be empowered with evidence-based sexual, mental and other health information.

# INTEGRATED DEVELOPMENT AND PEACE PROJECT (IDP PROJECT)

Nigeria has over 2 million displaced people, we are empowering them, one at a time. +

143 young girls and boys in IDP camps in New Kuchinguro are being empowered with physical health, leadership and peace-building education. +

**WE USE DIFFERENT INNOVATIVE APPROACHES TO EMPOWER OUR TARGET AUDIENCES (YOUNG PEOPLE).**

## SPORTS

## BOARD GAMES

## LECTURES

# SRHIN RESEARCH WITH PURPOSE ACADEMY

Join an elite group of young global researchers committed to the process of transitional researches that are focused on diverse themes using multi-disciplinary and inter-professional approach.

“

We research with purpose  
for progress. ■

”

We have published impactful studies in 8 international peer-reviewed research journals.

## Why join?

- Get published in peer-reviewed journals
- Join a community of young researches
- Work on world class research projects
- In-depth research training

We put **ethical responsibility** at the forefront of our research...
